# Final Metals AWG Update

## Group Discussions

- ▶ Motion #1 Amendment (Sara)
- ▶ Motion #2: Requirement of SW-846 Companion Prep Methods
- ▶ Motions & Recommendation Spreadsheet

- ▶ Calibration Performance Standard for ICP/MS vs ICP/OES

## Group Responses

- ▶ Added language to require the most current SW-846 methods be used in metals testing
- ▶ Reviewed and approved language for motion # 2
- ▶ Finalized 4 more performance standard recommendations & wanted to discuss implementation with the Steering Committee
- ▶ Need Steering Committee guidance since we have differences of opinion on this topic
